EDUCATION

Postdoctoral Fellowship, 2008-2011, Cincinnati Children's Hospital Medical Center, Cincinnati, OH

- Emphasis area: Pediatric Chronic Pain
Mentor: Susmita Kashikar-Zuck, Ph.D.

APA Approved Psychology Internship, 2007-2008, Dayton Children's through Wright State University, Dayton, OH

- Rotations: Pediatric Oncology, Consultation-Liaison Service, Child and Adolescent Outpatient Therapy, Parent-Child Interaction Therapy

Psy.D., Clinical Psychology, 2004-2008, Spalding University, Louisville, KY

- Emphasis area: Pediatric/Health
- Dissertation: Inaccurate Reporting of Child Body Weight Status by Child and Caregiver: Implications for Primary Care Providers.
Chair: Amy Buckley, Ph.D.

M.A., Clinical Psychology, 2002-2004, Morehead State University, Morehead, KY

- Emphasis area: Child Clinical

B.A., Psychology, Sociology, 1999-2002, Otterbein University, Westerville, OH

- Minor: Women's Studies
- Magna Cum Laude with Honors, with departmental honors in both Psychology and Sociology
- Honor's Thesis: The Impact of Father's Involvement on Child's Adjustment to Cancer.
Chair: Laura Bennett-Murphy, Ph.D.

HONORS AND AWARDS

- **Young Investigator Award**, American Pain Society, 2010
- **Young Investigator Award**, American Pain Society, 2009
- **McGraw Family Scholarship Recipient**, Spalding University, 2008
- **Department of Science and Technology, Graduate Student of the Year**, Morehead State University, 2004.
- **Department of Psychology Outstanding Clinical Psychology Graduate Student**, Morehead State University, 2004.
- **Phyllis Weygandt Auerbach Memorial Award**-Academic Scholarship, Otterbein College 2002. Given to a student who intends to enter the field of human services. Award based on student's participation in a volunteer program to provide service to the community.
- **Felipe Martinez Humanitarian Award**-Academic Scholarship, Otterbein College 2002. Given to a student who displays a general humanitarian emphasis both in philosophy and in action, and possesses a strong commitment to personal growth and education.
- **Psi Chi Research Grant**, Otterbein College. Effects of Father's Involvement on Child's Adjustment to Cancer. \$1380. 2001-2002. Principal Investigator.
- **Student Research Fund Award**, Otterbein College. Effects of Father's Involvement on Child's Adjustment to Cancer. \$300. 2001-2002. Principal Investigator.
- **Paula Peters Award**-Academic Scholarship, Otterbein College 2001. Awarded to a student who shows promise for serving others upon graduation.
- **Psi Chi National Honor Society**, Otterbein College, Morehead State University, 2001-2004
- **Teleiotes Chapter of Mortar Board**, Otterbein College, 2001-2002. National honor society recognizing Leadership, Service, and Achievement.
- **Phi Theta Kappa**-International Honor Society, Otterbein College, 1999-2002.

CLINICAL AND RESEARCH INTERESTS

Pediatric Psycho-Oncology

- Procedure preparation and acute and chronic pain management
- Risk, resiliency, and family factors associated with coping and adjustment
- Parenting a child with an illness
- Family communication around diagnosis, treatment, and prognosis
- Grief, bereavement, end of life issues

Medical Education

- Delivery and reception of feedback
- Provision of effective communication
- Resident resiliency and burnout prevention
- Development of leadership skills

ACADEMIC MEDICAL EDUCATION

Director of Behavioral Science, Assistant Program Director Family Medicine Residency Program, Boonshoft School of Medicine, Wright State University April 2018-present

Associate Professor of Family Medicine

Department of Family Medicine, Boonshoft School of Medicine, Wright State University, Dayton, OH

- Teaching
 - Develop and teach behavioral health didactics, seminars, and curriculum
- Clinical and Supervisory
 - Rounding and behavioral precepting of resident cases
 - Video and in-vivo review of resident encounters with provision of feedback
- Administrative
 - Coordination of residency behavioral science curriculum
 - Psychiatry and Addiction Medicine, Community Medicine, Geriatrics I, and Hospice and Palliative Care rotations
 - Review and ensure compliance with ACGME requirements for behavioral science and psychiatry training
 - Member of Boonshoft School of Medicine training committees
- Promote residency resiliency and well-being through wellness curriculum
- Serve as a personal consultant to residents as needed

Rotation Director Pediatric Residency Rotation, August 2017-2018

Nationwide Children's Hospital, Columbus, OH

- Develop behavioral health didactics for medical residents
- Development of competency assessments in psychology for medical residents
- Development of curriculum content and clinical experiences for medical residents

Ohio State University Medical Student Portfolio Coach, July 2015-2018

Ohio State University, College of Medicine, Columbus, OH

- Work with eight Ohio State University medical students to coordinate training plan, ensure experiences are consistent with goals and objectives, provide mentorship around professional development issues, development of ongoing supportive relationship, monitor progress, evaluate Objective Structured Clinical Exams (OSCEs), provide feedback about performance, act as advocate, and provide support and assistance with securing residency and research opportunities.

CLINICAL EXPERIENCE

Pediatric Psychologist, Clinical Assistant Professor of Pediatrics, October 2012-2018

Nationwide Children's Hospital, Columbus, OH

- Active member of multidisciplinary Hematology/Oncology/BMT teams
 - Psychology liaison to Leukemia/Lymphoma and Embryonal Tumor Teams
 - Provide treatment during inpatient stays, in Hem/Onc clinic, infusion clinic, BMT Clinic, and outpatient services
 - Complete evaluations for MIBG treatment, Surg/Onc Clinic, Leukemia End of Treatment Clinic
- Active member of the Pediatric Psychology staff

Pediatric Psychologist, January 2011-October 2012

Dayton Children's Hospital Medical Center, Dayton, OH

- Active member of multidisciplinary Hematology/Oncology team
 - Complete inpatient consult on every new cancer diagnosis
 - Provide evidence-based treatments to Hem/Onc patients and families from newly diagnosed to end-of-life
 - Provide treatment during inpatient stays, in Hem/Onc clinic, and outpatient services
 - Complete evaluations in long-term survivor clinic to assess need for follow-up
 - Complete evaluations in neuro-onc clinic and assess need for follow-up
- Active member of multidisciplinary Pain Team
 - Complete inpatient consults with chronic pain patients
 - Provide evidence-based outpatient therapy and limited inpatient therapy to chronic pain patients
- Consultation-Liaison Service
 - Provide psychological evaluation and limited treatment to children diagnosed with a variety of medical conditions who have been referred by their medical team for an array of presenting concerns
- Outpatient Therapy

Pediatric Pain Fellow, 2008-2011

Cincinnati Children's Hospital Medical Center (CCHMC), Cincinnati, OH

- Provide psychological assessments, consultation and treatment planning as part of the specialized multidisciplinary Pediatric Pain Clinic at CCHMC for patients with pain complaints such as recurrent abdominal pain, chronic back pain, complex regional pain syndrome, headaches, and fibromyalgia. Extensive experience in treating chronic pain and comorbid school avoidance, depression, parent-child problems, and anxiety disorders using biofeedback training, cognitive behavioral therapy, and behavior modification/parent training.
- Supervisors: Susmita Kashikar-Zuck, Ph.D. and Anne Lynch-Jordan, Ph.D.

Pediatric Psychology Intern, 2007-2008

Dayton Children's Hospital Medical Center, Dayton, OH

- Provided consultation/liaison services to several multidisciplinary inpatient units and outpatient clinics (Hematology/Oncology, Lipid Clinic, Infectious Diseases, Pulmonary, Cardiology, and Developmental Pediatrics) as well as on-call consultation services to the emergency department. Provided outpatient services to children with a variety of chronic medical conditions utilizing evidence-based approaches. Provided individual, family, and group therapy modalities. Treatment typically focused on medication/treatment adherence, pain management, coping and adjustment to chronic illness. Regularly attended psychosocial oncology rounds, pulmonary rounds, medical grand rounds, Care Clinic rounds (treatment for children who have experienced physical and/or sexual abuse), infectious diseases grand rounds, and long-term follow-up clinic for cancer survivors. Co-led a bereavement group for parents who had a child that had died within the last year.
- Supervisor: Mary Beth Dewitt, Ph.D.

Ellis Human Development Institute, Dayton, OH

- Provided evidence-based outpatient clinical services to children, adolescents, adults and families with various mental health issues. Utilized play therapy, parent training, Parent-Child interaction therapy, and cognitive-behavioral therapy. Provided psychological and psychoeducational assessments to children, adolescents, and adults for a wide range of psychological and educational problems.

- Supervisor: Janeece Warfield, Psy.D.

Primary Therapist, Behavioral Health-Doctoral Practicum, 2004-2007

Seven Counties Services, Louisville, KY

- Provided outpatient counseling at community mental health center for various mental health issues and disorders including depression, anxiety, PTSD, emotional, behavioral, and adjustment disorders. Also conducted psycho-educational, cognitive-behavioral, and process groups focused on gaining insight, skill-building, and increasing the understanding of mental illness. Additional services included intellectual and personality assessment, teaching of parenting skills with Parent-Child Interaction Therapy, and management of mental disorders. Services provided to children, adolescents, and adults through use of family, group, and individual treatment.
- Supervisor: Margaret Calvery, Ph.D.

Pediatric Rehabilitation-Doctoral Practicum, 2005-2006

Jewish Hospital—Frazier Rehab Neuroscience Center, Louisville, KY

- Provided care to children and families of children hospitalized with brain and/or spinal cord tumors, traumatic brain and/or spinal cord injury, spina bifida, chronic fatigue syndrome and other neurological difficulties. Focused on increasing child and family's ability to adapt to injury, evaluated the impact of injury or illness on neurodevelopmental functioning, and facilitated child and family's adjustment. Collaborative work with multidisciplinary team of physicians, specialists, OT, PT, speech therapists, recreational therapists, art therapists, social workers, and nursing staff.
- Supervisor: Margaret Calvery, Ph.D.

Crisis Counselor for Hurricane Katrina Survivors-Volunteer, September 2005

Family Assistance Center, Kentucky Psychological Association, Louisville, KY

- Provided immediate crisis counseling to individuals displaced by hurricane Katrina. Provided individual counseling, helped individuals find missing family members, critical incident de-escalation, provided grief and bereavement support, and linked individuals with community resources.
- Supervisor: Deborah Hino, Ph.D.

In-home Mental Health Counselor, Developmental Services Division, 2004

Seven Counties Services, Louisville, KY

- Provided behavioral interventions to urban children with a mental health and developmental disability dual diagnoses at home, school and in the community. Treatment focused on reducing socially unacceptable, aggressive and self-injurious behaviors, and increasing social, academic, and communication skills. Provided individualized therapeutic support services for children and families. Developed behavior management plans, completed functional behavioral analyses, and implemented treatment plans to help clients meet treatment goals.
- Supervisors: Julio Zayas, B.A., and Susan Reece, M.A., LCSW

Grief Therapist-Master's Internship, 2003-2004

Hospice, St. Claire Regional Medical Center Morehead, KY

- Conducted individual and family therapy sessions for family members dealing with death, dying, grief, and bereavement. Provided support group for bereaved children who recently lost or were in the process of losing a parent, sibling, or other loved one. Planned individual and support group activities and topics to help individuals cope. Assisted clients in their

grieving process to reduce chances of complicated grief. Conducted assessments as needed.

- Supervisors: Robin Franklin, M.A., LCSW, and Charles Morgan Jr. Ph.D.

School Psychology-Master's Internship, 2003-2004

Rowan County School System, Morehead, KY

- Conducted intelligence and achievement assessments using measures such as WISC-IV, Woodcock Johnson-III, and WIAT-II with preschool to 12th grade students in a rural Appalachian community. Completed assessments of personality, social-emotional functioning, and parent, teacher, and self-report measures. Developed behavior management plans and completed behavioral assessments in the classroom, of typical children, children with Autism, Attention Deficit Hyperactivity Disorder, Mental Retardation, and other disruptive behaviors. Conducted individual and group therapy of anger management at alternative middle school in addition to social skills training for elementary school aged children.
- Supervisor: Shari Kidwell, Ph.D., and Karen Tuerk, M.A.

Intensive Behavioral Intervention Therapist-Master's Practicum, 2003

Nationwide Children's Hospital Autism Center, Columbus, OH

- Worked with children diagnosed with Pervasive Developmental Disorders, specifically Autistic Disorder. Implemented behavioral intervention in the home of clients, using Applied Behavior Analysis. Completed behavior observations and assisted in the development of individualized therapy programs for patients.
- Supervisor: Jacqueline Wynn, Ph.D.

Child Life Family and Volunteer Services, 2001-2002

Nationwide Children's Hospital, Columbus, OH

- Facilitated adaptive adjustment of children and their families to hospital and outpatient clinic setting. Developed rapport with patients and their parents, using developmentally appropriate activities and play. Experience working with children with Pulmonary and Hematology/Oncology diagnoses.
- Supervisor: Marilyn Friedman, B.A.

Case Worker-Undergraduate Practicum, 2001-2002

Homeless Families Foundation, Columbus, OH

- Initiated first contact with families entering homeless shelter. Completed intake interviews and provided support and guidance to homeless children and families. Ensured adherence to program requirements and provided referrals for needed mental health services.
- Supervisor: Mary Taylor, MSW

TEACHING EXPERIENCE

Psychology of Women and Men, Adjunct Professor, 2008

Wright State University, Dayton, OH

- Responsible for providing an overview of gender development to undergraduate level students examining differences and similarities of biological, social/emotional, and psychological development of males and females throughout the lifespan utilizing current research.

Lifespan Development, Adjunct Professor, 2006

Spalding University, Louisville, KY

- Responsible for providing an overview of developmental psychology to undergraduate level students examining physical, social/emotional, and cognitive development from conception to death utilizing current research.

Introduction to Psychology, Adjunct Professor, 2006
Spalding University, Louisville, KY

- Provided a broad overview of the field of psychology and psychological concepts to undergraduate level students in an accelerated learning environment.

Introduction to Psychology, Adjunct Professor, 2005
Spalding University, Louisville, KY

- Provided a broad overview of the field of psychology and psychological concepts to undergraduate level students.

INVITED TALKS

Working with Resistant/Reluctant AYAs with Cancer, Palliative Medicine Fellows, Communication Workshop, November 2018
Ohio State University

- Provided a didactic training to Palliative Medicine Fellows regarding communication with AYA oncology patients who are resistant and/or reluctant to engage. Worked with standardized patient to practice intervention strategies and communication skills.

Promoting Adherence in Adolescent Orthodontic Patients, Growth and Development, Orthodontics Lecture, April 2017
Ohio State University

- Provided a didactic training to orthodontic residents regarding adolescent development, adherence, and motivational interviewing. Described preferred methods of increasing motivation for self-management specific to adolescent needs.

SEMINARS, LECTURES, & DIDACTICS

Death, Dying, Grief, and Bereavement in Pediatrics, Psychology Intern Seminar Series, March 2018
Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to psychology and psychiatry trainees about issues related to death, dying, grief, and bereavement. Discussed child understanding and conceptualization of death and dying across the developmental trajectory, working with patients and families prior to, during, and after death, and intervention and treatment focused on grief.

Developing Work/Life Integration, Psychology Fellowship Seminar, December 2017
Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Fellows regarding the process of finding work/life balance, identifying values and barriers, and issues related to personal, professional, and career development.

Using Acceptance and Commitment Therapy to Address Barriers to Parent Training, Psychology Intern Seminar, December 2017
Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training including the basic tenants of Acceptance and Commitment Therapy. Applied the model to a common therapeutic referral for parent training. Discussed typical barriers to traditional behavioral therapy and parent implementation.

Medical 101, Pediatric Psychology Specialty Seminar, October 2017

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about the transition to a medical setting, useful medical guidelines, and communication with medical staff.

Working with Death, Dying, Grief, and Bereavement, Psychology Intern Seminar Series, July 2017

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to psychology and psychiatry trainees about issues related to death, dying, grief, and bereavement. Discussed child understanding and conceptualization of death and dying across the developmental trajectory, working with patients and families prior to, during, and after death, and intervention and treatment focused on grief.

Working with Challenging Families, Hem/Onc/BMT Fellows Lecture Series, June 2017

Nationwide Children's Hospital

- Provided a didactic training to Hem/Onc/BMT Fellows on working with difficult and challenging families. Described characteristics of challenging families, identified patient, family, and provider factors that contribute to challenging partnerships, discussed barriers, and strategies for improved communication and partnering of providers and families.

Professional Boundaries in the Physician-Patient Relationship, Fast Facts, Resident Lecture, June 2017

Nationwide Children's Hospital

- Provided a didactic training to medical residents regarding personal and professional boundaries in the physician-patient relationship. Described the role of boundaries, differences between boundary crossing and violations, warning signs, importance of self-reflection and strategies for improved maintenance of boundaries.

ADHD (Disorders of attention and impulse control), Aggressive, Disruptive, and Antisocial Behaviors, Pediatric Residency Board Review, June 2017

Nationwide Children's Hospital

- Provided a review session for pediatric residents preparing for board review around prevalence, assessment, diagnosis, and treatment of ADHD, aggressive, disruptive and antisocial behaviors.

Developing Work/Life Balance, Psychology Fellowship Seminar, December 2016

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Fellows regarding the process of finding work/life balance, identifying values and barriers, and issues related to personal, professional, and career development.

Addressing Barriers to Parent Training Using Acceptance and Commitment Therapy, Psychology Intern Seminar, October 2016

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training including the basic tenants of Acceptance and Commitment Therapy. Applied the model to a common therapeutic referral for parent training. Discussed typical barriers to traditional behavioral therapy and parent implementation.

Working with Death, Dying, Grief, and Bereavement, Psychology Intern Seminar Series, June 2016

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about issues related to death, dying, grief, and bereavement. Discussed child understanding and conceptualization of death and dying across the developmental trajectory, working with patients and families prior to, during, and after death, and intervention and treatment focused on grief.

Professional Boundaries in the Physician-Patient Relationship, Fast Facts, Resident Lecture, March 2016

Nationwide Children's Hospital

- Provided a didactic training to medical residents regarding personal and professional boundaries in the physician-patient relationship. Described the role of boundaries, differences between boundary crossing and violations, warning signs, importance of self-reflection and strategies for improved maintenance of boundaries.

Evidence-Based Treatment for Parents of Children Newly Diagnosed with Cancer,

Pediatric Psychology Specialty Seminar, February 2016

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Interns on the Surviving Cancer Competently Intervention Program for Newly Diagnosed patients, which is a 3 session manualized intervention program for caregivers of children newly diagnosed with cancer. Provided rationale, framework for integrated CBT/Family therapy model, and discussed goals for increased caregiver communication, coping, and adjustment.

Using Acceptance and Commitment Therapy to Address Barriers to Parent Training,

Psychology Intern Seminar, December 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training including the basic tenants of Acceptance and Commitment Therapy. Applied the model to a common therapeutic referral for parent training. Discussed typical barriers to traditional behavioral therapy and parent implementation.

Finding Work/Life Balance, Psychology Fellowship Seminar, November 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Fellows regarding the process of finding work/life balance, identifying values and barriers, and issues related to personal, professional, and career development.

Professional Boundaries in the Medical Setting, LAUNCH, October 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to medical providers (nurses, respiratory therapists) regarding personal and professional boundaries in patient-medical staff relationships. Described the role of boundaries, differences between boundary crossing and violations, warning signs, importance of self-reflection and strategies for improved maintenance of boundaries.

Medical 101, Pediatric Psychology Specialty Seminar, October 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about the transition to a medical setting, useful medical guidelines, and communication with medical staff.

Parenting using Acceptance and Commitment Therapy, Psychology Intern Seminar, July 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training including the basic tenants of Acceptance and Commitment Therapy. Applied the model to a common therapeutic referral for parent training. Discussed typical barriers to traditional behavioral therapy and parent implementation.

Working with Challenging Families, Medical Residents Fast Facts Series, April 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to pediatric residents on working with difficult and challenging families. Described characteristics of challenging families, identified patient, family, and provider factors that contribute to challenging partnerships, discussed barriers, and strategies for improved communication and partnering of providers and families.

Surviving Cancer Competently Intervention Program for Newly Diagnosed, Pediatric Psychology Specialty Seminar, January 2015

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Interns on the Surviving Cancer Competently Intervention Program for Newly Diagnosed patients, which is a 3 session manualized intervention program for caregivers of children newly diagnosed with cancer. Provided rationale, framework for integrated CBT/Family therapy model, and discussed goals for increased caregiver communication, coping, and adjustment.

Non-pharmacological approaches to pain management, Fast Facts Resident Lecture, December 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to medical residents discussing pain characteristics (definition, rates, types), assessment of pain, the biological, psychological, and social aspects of pain, non-pharmacological approaches to treatment, and communication strategies for physicians to implement when discussing pain with patients.

Death, Dying, Grief, and Bereavement, Psychology Intern Seminar Series, November 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about issues related to death, dying, grief, and bereavement. Discussed child understanding and conceptualization of death and dying across the developmental trajectory, working with patients and families prior to, during, and after death, and intervention and treatment focused on grief.

Finding Work/Life Balance, Psychology Fellowship Seminar, November 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Fellows regarding the process of finding work/life balance, identifying values and barriers, and issues related to personal, professional, and career development.

Medical 101, Pediatric Psychology Specialty Seminar, November 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about the transition to a medical setting, useful medical guidelines, and communication with medical staff.

Working with Challenging Families, Hem/Onc/BMT Fellow Lecture Series, October 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Hem/Onc/BMT Fellows on working with difficult and challenging families. Described characteristics of challenging families, identified patient, family, and provider factors that contribute to challenging partnerships, discussed barriers, and strategies for improved communication and partnering of providers and families.

Impact of Pediatric Chronic Illness on Child Development, Hem/Onc/BMT Fellow Lecture Series, August 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Hem/Onc/BMT Fellows regarding the impact and disruption of the typical developmental trajectory, developmental concepts of illness, and the impact on parenting. Provided strategies for communication of medical team members in working with patients and families.

Intervention Strategies for Feeling 'Stuck', Psychology Intern Seminar Series, May 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training aimed at description and recognition of being stuck in therapy. Provided strategies and techniques to increase motivation through further assessment, evaluation of treatment goals, patient values, and identification of barriers.

Surviving Cancer Competently Intervention Program for Newly Diagnosed, Pediatric Psychology Specialty Seminar, February 2014

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Interns on the Surviving Cancer Competently Intervention Program for Newly Diagnosed patients, which is a 3 session manualized intervention program for caregivers of children newly diagnosed with cancer. Provided rationale, framework for integrated CBT/Family therapy model, and discussed goals for increased caregiver communication, coping, and adjustment.

Finding Work/Life Balance, Psychology Fellowship Seminar, December 2013

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Psychology Fellows regarding the process of finding work/life balance, identifying values and barriers, and issues related to personal, professional, and career development.

Death, Dying, Grief, and Bereavement, Psychology Intern Seminar Series, November 2013

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about issues related to death, dying, grief, and bereavement. Discussed child understanding and conceptualization of death and dying across the developmental trajectory, working with patients and families prior to, during, and after death, and intervention and treatment focused on grief.

Medical 101, Pediatric Psychology Specialty Seminar, October 2013

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training about the transition to a medical setting, useful medical guidelines, and communication with medical staff.

Coping and Adjustment of Pediatric Oncology Patients/Families, Hem/Onc/BMT Fellow Lecture Series, October 2013

Nationwide Children's Hospital, Columbus, OH

- Provided a didactic training to Hem/Onc/BMT Fellows regarding factors that impact the adjustment and coping of patients and their families to a diagnosis of pediatric oncology.

Family Therapy at End of Life, Medical Staff Didactic, 2012

Dayton Children's Hospital, Dayton, OH

- Provided a didactic training about the importance of psychology services, specifically, family therapy at end of life for pediatric oncology patients to hematology/oncology physicians and nursing staff.

Psychophysiological Disorders, Resident Didactic, 2012

Dayton Children's Hospital, Dayton, OH

- Responsible for providing an overview of psychophysiological disorders including diagnosis, treatment, and psychosocial management by physicians to first through fourth year medical residents.

Approaches to Working with Fibromyalgia Patients, Resident Didactic, 2010

Cincinnati Children's Hospital Medical Center, Cincinnati, OH

- Responsible for providing an overview of fibromyalgia diagnosis, etiology, and empirically-based psychological intervention for health behavior change in fibromyalgia patients to behavioral medicine residents.

Actigraphy-based Physical Activity Monitoring in Adolescents with JPFS, Division of Behavioral Medicine Colloquium, Cincinnati Children's Hospital, Cincinnati, OH, 2009

- Provided an overview of actigraphy-based physical activity monitoring and the relationship between physical activity, functional impairment, and depressive symptoms among adolescents diagnosed with JPFS. Discussed differences in functioning among high versus low active adolescents.

Pain Management in Children with Juvenile Idiopathic Arthritis, Guest Lecturer, 2009

Arthritis Foundation, Fall Family Camp

- Responsible for providing an overview of empirically-based psychological coping skills training to children diagnosed with JIA and their parents.

Approaches to Working with Chronic Pain Patients, Resident Didactic, 2008

Cincinnati Children's Hospital Medical Center, Cincinnati, OH

- Responsible for providing an overview of an empirically-based psychological intervention that uses acceptance and mindfulness strategies, together with commitment and behavior change strategies (Acceptance and Commitment Therapy), and the benefits of using this value-based approach for health behavior change in chronic pain patients to behavioral medicine residents.

Psychological Study of Contemporary Issues, Guest Lecturer, 2008

Wright State University, Dayton, OH

- Provided a broad overview of pediatric psychology to undergraduate level students. Topics included the role and duties of pediatric psychologists as well as specific populations, techniques, developmental considerations, treatment adherence, quality of life, and issues of death and dying.

Treatment of Trauma Using Narrative & Experiential Techniques, Grand Rounds Didactic, 2007

Wright State University, School of Professional Psychology, Dayton, OH

- Discussed evidence-based narrative treatment approaches designed for children and adolescents with a history of trauma specifically within a pediatric medical setting. Provided examples of specific techniques to utilize for individuals suffering with a medical condition, dealing with grief or bereavement to begin the narrative process.

Heads Up Program, Guest Lecturer, 2005

Kentucky Psychological Association, Louisville, KY

- Provided information about the relationship between psychology and daily functioning to the public. Topics included ways to reduce stress, cope with chronic illness, changing diet and exercise behaviors, and monitoring of individual well-being.

SUPERVISORY & MENTORING EXPERIENCE

Preceptor, August 2014-August 2015, August 2017-2018*

Nationwide Children's Hospital, Columbus, OH

- Coordinate training plan, ensure experiences are consistent with goals and objectives, provide mentorship around professional development issues, development of ongoing supportive relationship, monitor progress, provide feedback about performance, act as advocate, and provide support and assistance with securing post-doctoral fellowship.

Fellow Supervisor, 2013-2016

Nationwide Children's Hospital, Columbus, OH

- Provide individual supervision to a psychology fellow to assist in clinical treatment planning, case conceptualization, and professional development.
- Fellow 2013-2014: Lauren O'Hara
- Fellow 2014-2015: Claire Russell
- Fellow 2015-2016: Vicky Lehman

Intern Supervisor, April 2013-2018

Nationwide Children's Hospital, Columbus, OH

- Provide individual supervision to 3 psychology interns to assist in clinical treatment planning, case conceptualization, and professional development.
- Interns 2012-2013: Alexis Bridley, Cassie Green, Lauren Perrazo
- Interns 2013-2014: Nicole Dempster, Amy Hahn, Claire Russell
- Interns 2014-2015: Nicolle Bugescu, Lauren Garbacz*, Emily Kessler
- Interns 2015-2016: Jessica Hoehn, Dana May, Sarah Mayer-Brown
- Interns 2016-2017: Jessica Bailey, Caitlin Murray, Claire Wallace, Emily Wheat
- Intern 2017-2018: Yasmin Cole-Lewis, Amy Fahrenkamp*, Hannah McKillop, Andrea Wojtowicz

Extern Supervisor, 2011-2018

Nationwide Children's Hospital

- Provide individual supervision to psychology externs
- Extern 2012-2013: Nicole Dempster
- Externs 2014-2015: Winnie Chung, Carolyn Mingione, Anthony Vesco
- Extern 2015-2016: Shannon Ollier
- Extern 2016-2017: Dana Kamara
- Extern 2017-2018: Sean Tams

Graduate Student Mentor, 2011-2018

Division 54 Mentoring Project

- Provide mentoring to graduate student interested in Pediatric Psychology focused on research, clinical opportunities, and professional development.

Intern Supervisor, January 2011-October 2012

Dayton Children's Hospital Medical Center, Dayton, OH

- Provide individual supervision to 2 psychology residents to assist in clinical treatment planning, case conceptualization, and professional development.
- Interns 2010-2011: Eileen Chaves
- Interns 2011-2012: Candice Beck, Latisha Gathers

RESEARCH EXPERIENCE

Principal Investigator, 2015

Nationwide Children's Hospital, Columbus, OH

- Research to develop a bank of measures to assess anxiety, depression, social, physical, and family functioning, fatigue, pain, illness severity, traumatic stress, and coping across acute and chronic medical populations. Standardization of measures used will allow for the development of a clinical database to compare social, emotional, physical, and family functioning across illness populations.

Co-Investigator, 2015

Nationwide Children's Hospital, Columbus, OH

- HEAT Project to develop a medical resident curriculum for managing emotionally charged patient encounters. Project involves development of assessment measure, assessment and review of resident patient and standardized patient encounters. Repeated measures study with multiple baseline design.

Pediatric Pain Fellow, 2008-2011

Cincinnati Children's Hospital Medical Center, Cincinnati, OH

- Research Coordinator and primary research therapist for an NIH-funded (RO1) randomized clinical trial to investigate the effects of cognitive-behavioral treatment on adolescents with Juvenile Fibromyalgia Syndrome (JFS). Evaluated depression, anxiety, physical activity, and functional impairment. Conducted standardized diagnostic interview with the Kiddie Schedule for Affective Disorders and Schizophrenia-Present and Lifetime Version (KSADS)
- Primary research therapist for an NIH-funded (RO1) randomized clinical trial to investigate the effects of cognitive-behavioral treatment, biofeedback, plus medication in children and adolescents with chronic daily headaches. Conducted standardized diagnostic interview with the Kiddie Schedule for Affective Disorders and Schizophrenia-Present and Lifetime Version (KSADS)
- Primary research therapist for a NIH-funded (RO1) long-term follow-up study exploring the long-term developmental trajectories of physical impairment, and psychological, social, academic, and occupational functioning in adolescents diagnosed with JFS from adolescence through young adulthood. Trained in the administration of the Structured Clinical Interview for DSM-IV (SCID) and the tender point examination
- Assist with development of other research exploring the psychosocial impact, physical functioning, and longitudinal outcomes of children with chronic pain. Responsibilities include

participant recruitment; psychiatric assessment of potential participants; implementation of treatment; database management; supervision of three research assistants; manuscript preparation; coordination of staff at four study sites; review of manuscripts for psychology and pain journals and presentation at scientific conferences

- Supervisor: Susmita Kashikar-Zuck, Ph.D.

Research Assistant, 2009

Sickle Cell Research Day, Cincinnati Children's Hospital Medical Center, Cincinnati OH

- Conducted screening and assessment of adolescents diagnosed with Sickle Cell disease
- Research focused on adolescent perceptions about the upcoming transition of care from adolescent care providers to adult providers
- Supervisor: Lori Crosby, Psy.D.

Research Assistant, 2006

Department of Pediatrics, University of Louisville, Louisville, KY

- Assisted with validation of child anxiety measure in primary care setting. Collected data from 48 parent/child dyads
- Interviewed and collected data from children aged 7-10 using Child Depression Inventory, Pediatric Symptom Checklist-17-Child Self-report, and the Screen for Child Anxiety Related Emotional Disorders-Revised. Administered the Child Behavior Checklist and Pediatric Symptom Checklist-17-Parent Report to caregivers
- Supervisors: Ken Linfield, Ph.D., and Charlene Mitchell, M.D.

Research Assistant, 2006

Seven Counties Services, Louisville, KY

- Observed and evaluated play behaviors of children aged 3-5 receiving mental health services using the Play Dimensions Questionnaire. Research investigated differences in play behavior between preschoolers receiving mental health services and those not receiving services
- Supervisor: Pat Pernicano, Ph.D.

Student Researcher, 2005

Department of Pediatrics, University of Louisville, Louisville, KY

- Examined the accuracy of child body weight status and exercise behavior by child and caregiver report. Gathered data from the Department of Pediatrics, Children and Youth Project, a primary care clinic located at the University of Louisville Medical Center that serves medically underserved children and their families
- Interviewed and collected data from children aged 8-12 and their caregivers. Measures administered to child included the Child Body Image Scale, Change Assessment Scale for Kids and Teenagers, Youth Risk Behavior Survey-Diet & Exercise versions, and Reynolds Child Depression Scale. Caregiver measures included the Child Body Image Scale-Adult and the Godin Leisure Time Exercise Questionnaire
- Supervisors: Abbie Beacham, Ph.D., and Charlene Mitchell, M.D.

Research Coordinator, 2005

Department of Pediatrics, University of Louisville, Louisville, KY

- Examined the accuracy of body image perception of caregivers and their children as it related to readiness for change in dietary and exercise behaviors. Data gathered from the Department of Pediatrics Child and Youth Project

- Responsible for protocol preparation, completion and submission of IRB forms, recruitment, screening, and enrollment of study subjects. Played integral role in the development and completion of study documents. Created data collection forms and managed databases, supervised staff, and coordinated data collection activities
- Supervisors: Abbie Beacham, Ph.D., and Charlene Mitchell, M.D.

Research Assistant, 2004-2005

Department of Pediatrics, University of Louisville, Louisville, KY

- Examined the accuracy of adult's body image perception as it related to readiness for change in dietary and exercise behaviors. Data gathered from the Department of Pediatrics Children and Youth Project
- Interviewed and collected data from caregivers. Measures administered included the Silhouette Scale, Ben-Tovim Walker Body Attitude Questionnaire, Cognitive Behavior Dieting Scale, Stages of Change Questionnaire, Dietary Questionnaire, Godin Leisure-Time Exercise Questionnaire, and the Positive and Negative Affective Schedule
- Supervisors: Abbie Beacham, Ph.D., and Charlene Mitchell, M.D.

Research Coordinator, 2002-2003

Morehead State University, Morehead, KY

- Examined pre-school age children's attachment using the Strange Situation in relation to emotion regulation, vagal tone, child adjustment, self-esteem, and knowledge of emotion
- Administered psychological measures to children including the PPVT, Puppet Interview, and the Parent/Child Teaching Task in addition to measures of self-esteem, emotion understanding and regulation. Received advanced training in completing ratings of child behavior and affect. Trained other students in experimental procedures. Responsible for initial contact and recruitment of families. Interviewed children about adjustment, self-esteem, and knowledge of emotion. Completed data entry using Excel
- Supervisor: Shari Kidwell, Ph.D.

Student Researcher, 2001-2002

Nationwide Children's Hospital, Hematology/Oncology Department, Columbus, OH

- Investigated the impact of father's involvement on child's adjustment to cancer. Administered measures and questionnaires. Analyzed validated measures of adjustment, distress, and coping. Completed data entry using Excel. Data analyzed using SPSS
- Supervisors: Laura Bennett-Murphy, Ph.D., and Tammi Young-Saleme, Ph.D.
